

## Welcome to Davoweb

Initially this website was intended to be just a vehicle used to publish my family tree, to share information and make contact with long-lost relatives. If that's how you arrived here, please feel free to contact me! If you're researching your family history you'll need to register on the site to see details of living individuals, but anyone is free to browse.

Over a period of time I decided to extend the site to encompass some of my other interests as well.

The site is built on the Joomla! Content Management System. I do this type of work for a living as well, and I reckon this is the easiest and fastest way to get a self-managed and professional-looking website up and running. I hope you enjoy the result!

Cheers,

Ian
